

TRAILED VINEYARD MIST BLOWERS (1000L)

General Characteristics:

- Comet Alfa 2 control unit
- COMER 2-speed gearbox
- Ø800mm Multi-Wing Fan with adjustable blade angles
- Comet APS-121 pump (115L/ min @ 550rpm max.50 bar)
- Drawbar has two height positions and multiple length positions
- Two agitators supplied with positive pressure
- Adjustable track width through split axle and clamp arrangement (1.2 to 1.5m)
- La Magdalena PTO's (Both Class 6 ; Tractor PTO with CV Joint for tight cornering)
- 80 BAR high pressure hoses (Specifically designed for spraying operations, chemical resistant)
- Control unit brackets supplied for both working (tractor mount) and storage (located on unit)
- Foldable step for filling and inspection operations (Step made from Vastrap plate for better grip)
- Arg stainless steel 'spray arms' with double roll over nozzles
- Ergonomic design of pump, filters and piping layout to simplify maintenance operations
- High quality imported 1000L Polyethelyne Tank (Chemical, clean water & hand wash)
- Laser cut 'Indicator plate' at the front of the unit, to both protect the plastic filter behind it and to allow the tractor driver to see the tank level without leaving the tractor.
- Tee pieces and taps, at the rear of the unit, allow the option of stopping flow to the nozzles and coupling hand-held spray guns
- Parking jack doubles as a holder for the tractor PTO when not in use
- Tie-down lugs at rear of unit for transport on a trailer
- Tyres (225/75R15)

Part No.	Description
RM10500	Rovic 1000L Vineyard complete with Multi-wing Fan (Pump COMET APS-121)
